It was moved by Siepker, seconded by Peters, to approve the Treasurer's quarterly investment report Ayes all, motion carried.

James Roetman updated the Board on the nitrate credits related to the project in DD 8 West. Cedar Creek Watershed finalized the projects in Pocahontas County but they will not assist with the cost of the project or the nitrate removal as it is outside the watershed by about a half a mile. Roetman is trying to determine the amount of nitrate credits that could be produced from the project. Once determined, he will be able to calculate how much money the nitrate credits could turn into. He warned there is no guarantee it will happen. It depends on if the EPA enforces the regulations but he wants to be prepared. The land use agreement was discussed, they will continue discussion at the April 25<sup>th</sup> BOS meeting.

Dan Schneider and Michael Scott with Scott Technologies & Telecom let the Board know as of May 22, 2017, Toshiba would no longer be producing or selling telephones. Parts, phones and licenses would still be available during the warrantee. The warrantee is seven-years on extended hardware and five-years on software. Scott explained we could stop the phone installation if we want but as a Toshiba dealer for 27 years, his assessment is he is not fearful. If he had serious doubts, he would tell us. Once we have the phones up and running, he doesn't foresee any issues. Scott assured the Board there would be someone there to take care of the software after the five years. Supervisors told Scott to continue with the installation. Schneider said we should have this project wrapped up by the 1<sup>st</sup> of May.
