

White Spruce

- Full sun
- Zone 2-7
- Height: 50-60 feet
- Spread: 15 feet
- Medium growth rate; slower in summer
- Prefers moist sandy loam soils
- Drought tolerant
- Wildlife value: Provides nesting sites for birds and shelter for many kinds of wildlife. Crossbills, evening grosbeaks and red-breasted nuthatches eat the seeds, and grouse, rabbits, and deer eat the foliage. Red squirrels cut open cones to eat the seeds, and they feast upon young, tender spruce shoots.
